Chaper 12 & Closing
From the Mountain Top to
the Mission

Recap of DiscipleSHIFT

- **SHIFT - (n) a change in position, direction, and/or tendency. Switch, alteration, rearrangement.**
 - For true follower of Christ, the goal and intention is to deny ourselves and our human nature with a view to subject of ourselves to God's transformational process, where we give God room to take us, shake us, and make us into whatever it is He designed us to be in accordance with His purpose for our lives.

Recap of DiscipleSHIFT

- SHIFT - (n) a change in position, direction, and/or tendency. Switch, alteration, rearrangement.
 - **Shift affords for a deviation from that which is constant**, to another degree of existence.
 - To that end, the life of a disciple is one of constant shifting and shaping, construction, framing and carving, measuring and cutting, sketching and sculpting, because we're never at a point of completion and our lives will perpetually experience shifts to match the design of the Divine.
